

# VACANCY > VETERINARY ADVISOR

**Glanbia Ireland is a world class, ambitious, integrated agri-food and nutrition business, with a diverse portfolio of quality ingredients, leading consumer and agri brands with the proven talent to succeed in the global market.**

Glanbia Ireland owns leading consumer and agri brands such as Avonmore, Kilmeaden Cheese, Premier Milk, Wexford, mymilkman.ie and GAIN Animal Nutrition. It processes a 2.6 billion litre milk pool from 21 counties and exports high quality dairy and agri ingredients as well as branded products to over 60 countries. With annual revenue of €1.8 billion, Glanbia Ireland has 11 processing plants, 53 agri branches and over 1,800 employees.

As a result of internal reorganisation, an exciting opportunity has arisen for a Veterinary Advisor in Glanbia Ireland. Reporting to the Head of Technical Development the primary responsibility of the Veterinary Advisor is the provision of technical advisory and thought leadership in relation to animal health, animal welfare practices and dairy hygiene. The appointed person will work with stakeholders across the Agribusiness category to proactively improve the profitability of production at farm level through the application of best-practice.

## KEY RESPONSIBILITIES

- Create animal health & welfare articles and on-line content for publication and circulation to farmers
- Develop, design and deliver customised presentations to GI staff and farmers on animal health, welfare and dairy hygiene
- Respond to requests from customer relationship and advisory staff for technical support in relation to specific farmer queries
- Provide input on the veterinary medicines product portfolio including recommendation of new products, product retirement
- Encourage farmer participation in current GI diagnostic services and lead the development of further service provision in the animal health arena
- Contribute towards the GI business strategy and growth plan, and lead strategic projects in the area of animal nutrition, health & welfare
- Collaborate with Milk Quality, Sustainability and Feed Technical Managers in new product/ service
- development and feed formulations regarding animal health
- To liaise with relevant national and international animal health and food safety organisations to provide GI and its milk suppliers with industry leading initiatives in preventative medicine and herd health

## KEY REQUIREMENTS:

- A Veterinary Degree registrable with the Veterinary Council of Ireland
- A minimum of five years post-qualification experience in the Veterinary Medicine sector
- A PhD or further qualification in the area of animal health, prior experience within a research, industry, project management or teaching function would be a distinct advantage
- Good communication skills in delivering technical presentations to various audiences
- Enthusiastic with a positive mindset and manner
- Strong MS Office skills, particularly in Excel and PowerPoint
- Ability to motivate others and build effective teams
- Excellent interpersonal skills and problem solving abilities
- Ability to work alone and as a team member in a competitive working environment
- Strategic agility and a drive to achieve results

**IF YOU ARE INTERESTED IN THIS POSITION, PLEASE APPLY THROUGH THE 'MY CAREER' PORTAL ON THE GLANBIA HOMEPAGE WITH AN UP TO DATE RESUME.**
