Established in 1836, the USPCA is the second oldest animal welfare charity in the world and its purpose has remained unchanged over that time – the prevention of cruelty and the relief of suffering in animals. The charity is now recruiting to two full time, permanent positions in its most recent development – a state of the art animal hospital in Newry, Co. Down.

HOSPITAL MANAGER/SENIOR VETERINARY SURGEON
You will lead the clinical team and be responsible for all aspects of clinical governance. In addition to clinical practice, you will have full budget responsibility, ensuring the effective use of USPCA resources, developing the service offering and controlling costs. You will be a multi-faceted RCVS registered veterinary surgeon able to demonstrate a strong track record of clinical practice, good communication skills, leadership and people management.

VETERINARY SURGEON
This is an excellent opportunity for a small animal clinician seeking to gain further experience in all aspects of small animal medicine and surgery and wider exposure to the treatment of injured wildlife and cases of animal cruelty. You will be a RCVS registered veterinary surgeon, ideally with at least one year of post qualification experience in small animal practice. A self-starter, able to manage a busy workload and contribute positively as a key member of the clinical team.

To apply please email your CV to headoffice@uspca.co.uk with a covering letter stating the position you are applying for and how you meet the criteria for the job. Job descriptions are available online at www.uspca.co.uk.

The closing date for receipt of applications is noon, Friday 12th August.
